DR. F. T. KIDDEK CHOSEN

Elected President at 98th Annual Meeting of Vt. Medical Society.

Timely Problems Discussed-Important Paper on Infantile Paralysis-Annual Banquet at Hotel Vermont Thursday Evening.

The Vermont State Modical society, which has a history of almost hoyears, and celebrate its centennial in 1913 held its 98th annual meeting in this city last week. The sessions opened in the medical building of the University of Ver- fattifully by the doctors at their dinner nected with the home had not yielded its mont Toursday morning at it o'clock. In Thursday might, who with their wives and return as in former years because of the Bandst Church parlors to the new the evening the annual languet was friends, sat down in the dining-room of by informal dancing on the roof gapten. Unlike the ordinary banquet card, on collar, as has been in former years. A feature of the day was the election of which the "eats" are followed by this In Frederick T. Kilder of Woodstock "well-bosen semarks," The menn conbe president of the society, succeeding Dr. sisted first of a course and then a

ROPTINE UNTIL NOON.

Thursday's session opened with prayer version by the Rev. 2. G. Gairnele, mason of the vicinity from the commonolace. First Church, Mayor Roberts, speaking 100 S v. Hammond of Buttond, and n his usual happy vein then welcomed versary confirman of the society, we the doctors to this city. Reating business followed, including the presentation of the reports of officers and committees, which is the land and a running fire of reads showed the society to be in a descripting wit The condition. No large gain to membership as followcondition. No large gain in membership was reported, for the society is on a versubstantial foundation, and its present growth is accordingly slow, for it has practically resched the limit of numberpossible in a State of this sixe.

Delegates from the medical societies of other States were then inveduced and greetings were brought from three New England common wealths by Drs. Williamson of Bangor, Me., Haskell of Bridge port, Conn., and Canedy of Greenfield. Mass. The one last named is superin tendent of the State hospital in his home

ADDRESSES IN AFTERNOON.

The afternoon opened with the vice president's annual address by Dr. S. W. "Beath, Debts and the Devil," Dr. C. Paige of St. Albans, who spoke upon "Neuralgia" His paper. His the other read at this meeting, was highly tech nical in its neture, taking up the cause and treatment of this allment. Dr. Beorge S. Eidwell of Waterbury, who has had wide experience in dealing with cases of neuralitis, opened the discussion of the paper, and others also spake briefly Let. A. H. Bellerone of Hutland presented the next paper, taking up the subject of "Radforfitts," a spinal mainty His talk was illustrated with diagrams

"The Occupation Diseases of Modern Ice Over Life," was the topic of a puper in the W. Gliman Thompson of New York, postnoned because of the absence of the speaker. In its place was substituted the paper which was to have been read this coording by Dr. E. J. Melville of St. Albana, dealing with "Trentment of Injur-lans, dealing with "Trentment of Injurios of Abdomen." The discussion of this paper was assigned to Dr. Lynan Allen of this city and Dr. L. L. Leonard of there. A paper upon "Spinal An-nestnesia," by J. M. Alfen of St. Johns. mry, was read by Dr. F. E. Parmer of but place, who also opened the dis-

INFANTULE PARALYSIS.

The closing address of the atternson wa which was presented by Do. Hodshins of Palmer, Mass., who the well-known American Butland, who has made important tributions to the mesent-sur kneed of Infantile paralysis, onched the dimeafon, which was continued by he W. Sears of this city and others.

Acute polinnivelitis is the techniterm for infantile parelysis to nonneed "polly-chemy-e-lighted" to to cent wears its prevalence has increase in various parts of and in his there were many rates Vermont. The majority of the cases are found along times of travel and with a few miles of the ral forms, but months asses have commend for which to an parent source could be found. Hodeldne's paper mos un fur considera-Te there a siruffar discuss in animater was one of the questions discussed, and mill employe. White, a spinner, the paper also treated the methods of transmission and the nathology of the men on Tuesday, and when he quit disease, as well as the classification of work late at night he was assaulted. diagnosts and freetment of the disease name direct upon at some length.

At five o'clock, in because to was a meeting of the house of delegates, the sofficial legislative body of the society. Dr. Eldder's election followed. Nominaone of other officers were mule, to he presented to the society Priday morning. Brom from o'clock the server there was a reception for the indies on the roof garden of the Vermont.
